

# OXYGEN GENERATOR

**Made in USA.**  
**Assembled in china.**

## DESCRIPTION

### SPECIFICATIONS:

**Flow range:** 1L - 7L / min (90% ~ 30%)

**Optional plug type:** American plug

**Machine noise:** <43 dB

**Power supply:** AC 220V/50Hz

**Net weight:** 7kg

**Dimension:** 11.2in\*7.4in\*11.9in

### FEATURES:

With time collect function: Display the total operation time. With timed power off function. Anion generating function can improve the alveolar ventilation function and increase the absorption rate. 24 hours of continuous electric supply.

### RANGE OF APPLICATION:

Produce for personal or family healthcare

## FUNCTION

Timing, Multiple mute, LED Touch screen, Voice, Negative ion

## PACKAGE INCLUDES:

|                                    |                      |
|------------------------------------|----------------------|
| 1 machine                          | 2 Filter cotton      |
| 1 Product use and technical manual | 1 certification card |
| 1 Nasal tube                       |                      |

## FEATURES & DETAILS

**[1-7L flow adjustable]** 1L/m: 90%±3; 2L/m: 75%; 3L/m: 60%; 4L/m: 50%; 5L/m: 40%; 6L/m: 35%; 7L/m: 30%, HD LED Touch screen easy to read.

**[≤45dB Quiet]** The machine is very low noise, less than 45dB, night use will not affect sleep, It works with or without water, no need to refill at night.

**[Anion Function and Timing Function]** Built-in high frequency negative ion generator, The machine is equipped with a timing function (4 hours).

**[AC power 220V]** Power supply: 220V±10%, 50Hz | It can work 24 hours nonstop.

**[Portable Design]** Outline size: 11.2in\*7.4in\*11.9in | Weight: 15.4Lb | Easy to move with convenient handle.
